

Active Ingredients

L-arginine is a powerful amino acid found in Synergy WorldWide's premier product ProArgi-9+.

Yerba Mate leaf extract has stimulating properties that contribute to the resistance against mental and physical fatigue. This ingredient also helps strengthen the body while helping you feel more energetic.

Guarana seed extract and **green tea leaf extract**, are both natural caffeine sources.

Vitamin B Complex is a group of 7 water soluble vitamins, including Vitamin B6 and B12, that need to be replenished on a daily basis through a balanced diet. This need becomes increasingly important for those who are physically active or under stress. B-vitamins fulfill specific roles within the body to contribute to a normal, energy-yielding metabolism. The effectiveness of these vitamins increases when taken together.

Vitamin C plays a role in collagen formation for the normal functions of blood vessels, bones, cartilage, gums, skin and teeth while also increasing iron absorption.

Pantothenic acid aids in maintaining normal mental performance while also contributing to the reduction of fatigue.

e9 also contains:

Thiamin, riboflavin, niacin, folic acid, inulin, white willow bark, Korean ginseng root extract, maca root extract, acai berry concentrate, aloe vera whole leaf concentrate

Energy with
L-arginine

SYNERGY
leave a legacy

Energy that fits your healthy lifestyle.

You may be an aspiring entrepreneur, a university student fighting with deadlines, or an athlete making time for strenuous workouts in an already tight schedule. You most likely play many roles in your life—father, mother, employee, coach, volunteer—and with healthy energy, you can succeed at anything life throws at you.

Synergy's e9 energy formula combines the power of L-arginine with high-quality ingredients to provide you with the stamina required to meet life's demands. Today, there are dozens of quick fixes for low energy, but with e9's unique blend of vitamins and natural caffeine sources, you can trust that you are taking a product that supports your healthy lifestyle. No matter what time of day it is, if you are fighting to focus, stay alert and stay energised, mix up a serving of e9 and enjoy its refreshing, piña colada flavour.

e9 BENEFITS

- Long-lasting, healthy energy through a unique, low-calorie formulation
- Contributes to normal, energy-yielding metabolism
- Plays a role in the reduction of tiredness and fatigue
- Contributes to normal psychological and mental function
- Supports the body's natural ability to produce energy
- Great-tasting piña colada flavour
- Sweetened with steviol glycosides that occur naturally in stevia leaves
